The Solution

@weareUAI | #UAWWeek #UtilityAnalytics

Hosted by **SDGE**TM

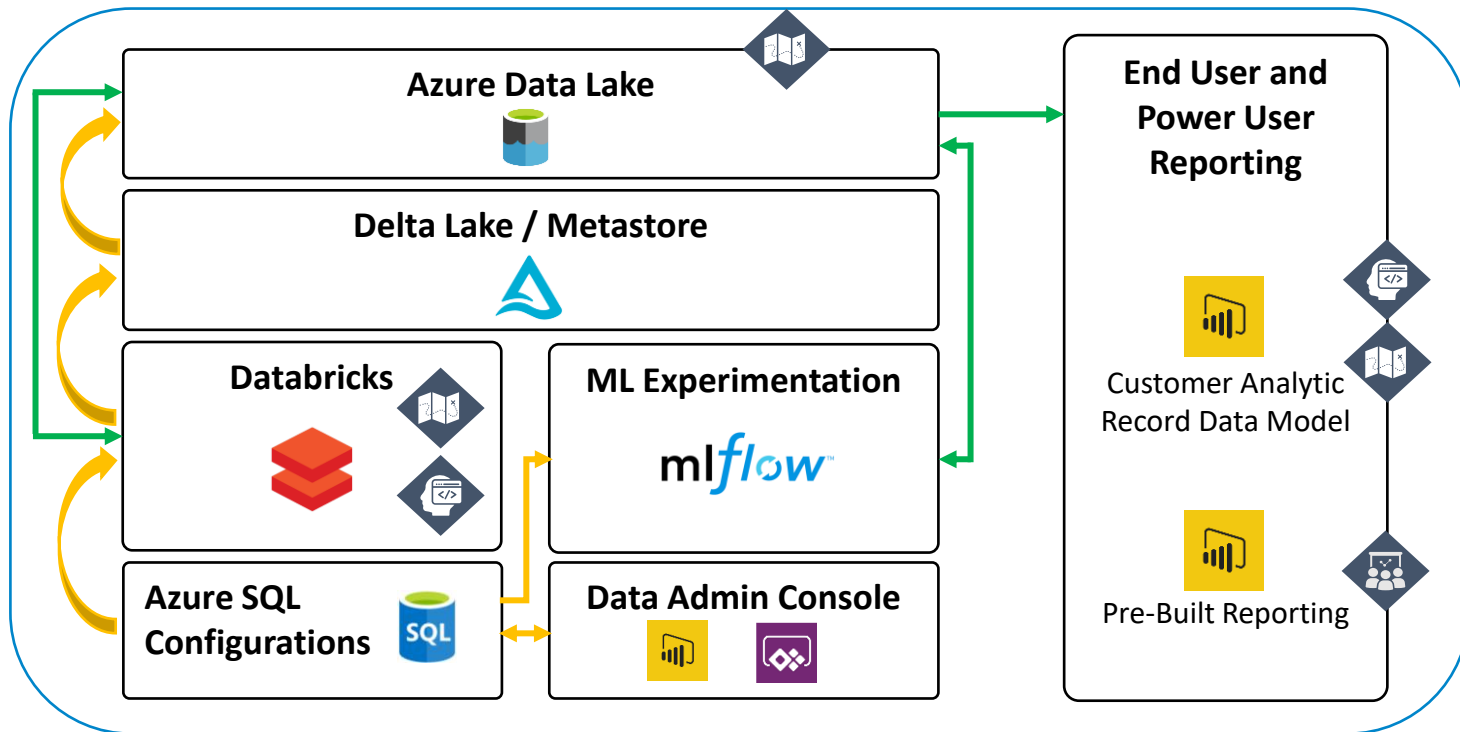

Con Edison has implemented a cloud-based metadata driven platform that combines best-in-class technologies

October 18-20, 2022
San Diego, CA

UA Week®

Business Stakeholders benefit from the integration of disconnected sources and workflows through modern tools

Legend

Control Flow Data Flow

Data Analyst

- Integration of disparate systems
- Highly performant querying in Databricks and visuals in Power BI

Business Analyst

- Reporting without manual intervention
- Investigative capabilities in Power BI and Databricks

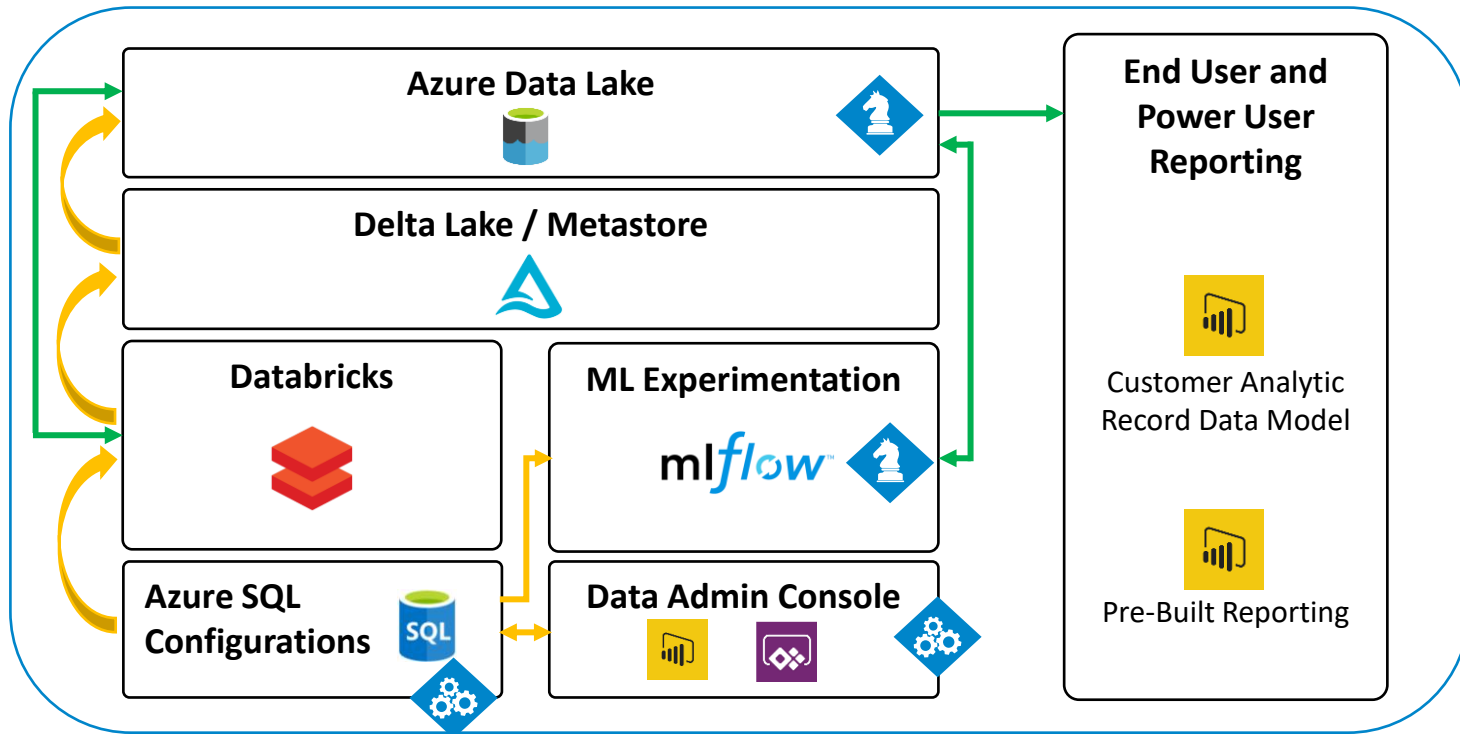

BI Consumer

- Self-Service reporting with most recent data

October 18-20, 2022
San Diego, CA

UA Week®

Technical stakeholders have access to a platform that provides capabilities abstracted to simple configurations

Legend

Control Flow Data Flow

→ →

Data Scientist

- Raw, semi-processed and processed data expands options for analysis
- Integration of ETL and Mlflow allows for tight management of experiments and easy integration into data structures

Data Engineer

- GUI capabilities democratize best-in-class cloud capabilities
- Integrated monitoring and management capabilities using the Power Platform

Next Steps

@weareUAI | #UAWWeek #UtilityAnalytics

Hosted by **SDGE**TM

Candidates for upcoming initiatives may range from merging existing infrastructure to fine tuning the results of this effort

Connecting this Azure-based solution with existing technologies to streamline business users' path to insights

Integrating Energy Efficiency and Grid Asset Management systems to combine asset management, grid ops and customer analysis

Considerations for a 4th business user who needs to self-serve with low-code/no-code solutions

October 18-20, 2022
San Diego, CA
